Serving Adams, Arapahoe, Broomfield,  
Denver, Douglas, and Elbert Counties

## MISSION STATEMENT

To raise funds to support, organize and develop programs that provide training, education and tools for the general population on life saving skills to enable them to be prepared to take care of their own before professional help can arrive.

## MHRETAC SAVE A LIFE PROJECTS

### Hands-Only CPR Training

Sudden cardiac arrest is a leading cause of death. Each year more than 350,000 EMS-assessed out-of-hospital cardiac arrests occur in the U.S. Bystander hands-only CPR can increase the survival rate 2 to 3 times. 70% of out-of-hospital cardiac arrests happen in homes.

*Be the difference for someone you love!*

### AED Donations and Training

AED's are provided to the communities, businesses, schools and churches along with the stop the bleed kits.

### Stop the Bleed Training and Kits

A bleeding person can die from blood loss within 5 minutes. Learn to apply a tourniquet and stuff wounds to stop the bleeding and save lives. Trauma remains the leading cause of death for Americans under the age of 46.

### Heatstroke Prevention

Child heatstroke fatalities in 2017 were 43 fatalities with 791 fatalities since 1998. A child can die from heatstroke in 10 minutes!

*Look before you lock!*

### Lightning Strike Education

Based on data since 1980, lightning causes 3 fatalities and 12 injuries per year in Colorado which ranks among the top five states for fatalities and injuries. In an average year, about 500,000 lightning flashes hit the ground in Colorado.

*With that in mind, golfers, swimmers, hikers and hunters need to know how to stay safe when the skies turn angry.*

## DRESS CODE

Collared shirts, shorts of appropriate length and socks are required. No denim or metal spikes on the golf course or clubhouse.
